Springer International

Pflügers Archiv · European Journal of Physiology

Founded in 1868 as „Pflügers Archiv für die gesamte Physiologie des Menschen und der Tiere" by *E. F. W. Pflüger.* Edited by *M. Verworn, E. Abderhalden, A. Bethe, R. Höber, A. v. Muralt, H. Rein* et al.

Published: Vol. 1–29 (1876) Cohen und Sohn, Bonn; Vol. 30–92 (1901) E. Strauß, Bonn; Vol. 93–170 (1917) M. Hager, Bonn; since Vol. 171 (1918) Springer, Berlin.

Since 1920 Pflügers Archiv has included: „Archiv für Physiologie" (Archiv für Anatomie und Physiologie, Physiologische Abteilung). Founded and edited by Johannes Müller, E. du Bois-Reymond, W. v. Waldeyer-Hartz et al. 1877–1914. Veit und Co., Leipzig, since 1915, Vereinigung Wissenschaftlicher Verleger, afterwards Walter de Gruyter, Berlin.

Copyright

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA

Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. This fee is US$ 0.20 per page, or a minimum of US$ 1.00 if an article contains fewer than five pages. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0302-8933, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

Contents of volume 409

No. 1–2 (pp 1–222) published May 26, 1987
No. 3 (pp 223–341) published June 16, 1987
No. 4–5 (pp 343–546) published July 13, 1987
No. 6 (pp 547–648) published August 7, 1987

Abelenda M, Puerta ML: Inhibition of diet-induced thermogenesis during pregnancy in the rat 314
Amarnani NH → Ammon HV et al. 601
Ammann D, Bührer T, Schefer U, Müller M, Simon W: Intracellular neutral carrier-based Ca^{2+} microelectrode with subnanomolar detection limit 223
Ammon HV, Amarnani NH, Loeffler RF: Acid pH enhances the effects of taurodeoxycholate on water and solute transport in the human and rat jejunum 601
Ashcroft FM → Kakei M 337
Ashford MLJ → Sturgess NC et al. 607
Athias P → Fantini E et al. 632

Barlet-Bas C → Khadouri C et al. 296
Baumann H, Jäggi M, Soland F, Howald H, Schaub MC: Exercise training induces transitions of myosin isoform subunits within histochemically typed human muscle fibres 349
Bay W → Heinemeyer D 142
Beaujean V, Crabbé J: Gossypol interferes selectively with water and urea permeability of toad bladder 638
Beck F-X, Dörge A, Rick R, Schramm M, Thurau K: Effect of potassium adaptation on the distribution of potassium, sodium and chloride across the apical membrane of renal tubular cells 477
Beck F-X → Wirthensohn G et al. 411
Belles B, Hescheler J, Trube G: Changes of membrane currents in cardiac cells induced by long whole-cell recordings and tolbutamide 582
Benndorf K, Markwardt F, Nilius B: Two types of transient outward currents in cardiac ventricular cells of mice 641
Berman DM, Soria MO, Coviello A: Reversed short-circuit current across isolated skin of the toad *Bufo arenarum* 616
Bilan PT → Fleming N et al. 416
Bilezikian SRJ → Kassotis J et al. 47
Binah O, Rubinstein I, Gilat E: Effects of thyroid hormone on the action potential and membrane currents of guinea pig ventricular myocytes 214
Boldin S, Jäger U, Ruppersberg JP, Pentz S, Rüdel R: Cultivation, morphology, and electrophysiology of contractile rat myoballs 462
Bom AH → Mohr B et al. 145
Bonazzola P → Ponce-Hornos JE et al. 163
Bonjour J-P → Caverzasio J et al. 333
Bossu J-L → Taleb O et al. 620
Bourguet J → Svelto M et al. 486
Bournaud R, Mallart A: An electrophysiological study of skeletal muscle fibres in the 'muscular dysgenesis' mutation of the mouse 468
Brummermann M → Gray DA et al. 422
Bryant SH → Walsh KB et al. 220
Bührer T → Ammann D et al. 223
Burckhardt BC, Frömter E: Evidence for OH^-/H^+ permeation across the peritubular cell membrane of rat renal proximal tubule in HCO_3^--free solutions 132
Bussieres L, Laborde K, Dechaux M, Sachs C: Effects of prolactin on Na-K-ATPase activity along the rat nephron 182

Čapek K → Pácha J et al. 194
Carbone E → Swandulla D et al. 52
Carvalho V → Fleming N et al. 416
Casavola V → Svelto M et al. 486
Casteels R → Droogmans G et al. 7
Caverzasio J, Danisi G, Straub RW, Murer H, Bonjour J-P: Adaptation of phosphate transport to low phosphate diet in renal and intestinal brush border membrane vesicles: influence of sodium and pH 333
Cecchi G, Colomo F, Lombardi V, Piazzesi G: Stiffness of frog muscle fibres during rise of tension and relaxation in fixed-end or length-clamped tetani 39
Cohen S → Dascal N 512
Colomo F → Cecchi G et al. 39
Cooper KE → Vaughn LK et al. 635
Courtois M → Fantini E et al. 632
Coviello A → Berman DM et al. 616
Cox TC, Woods RE: Dihydroouabain, a reversible inhibitor of the sodium pump in frog skin 323
Crabbé J → Beaujean V et al. 638
Cragoe EJ Jr → Ehrenfeld J et al. 200

Dagan D → Marom S et al. 578
Danisi G → Caverzasio J et al. 333
Dascal N, Cohen S: Further characterization of the slow muscarinic responses in *Xenopus* oocytes 512
Dascal N, Lotan H, Lass Y: Dissociation of acetylcholine- and cyclic GMP-induced currents in *Xenopus* oocytes 521
Daugaard H, Egfjord M, Olgaard K: Isolated perfused rat kidney and liver combined. A new experimental model 217
Dechaux M → Bussieres L et al. 182
Declerck I → Droogmans G et al. 7
Demeneix BA → Taleb O et al. 620
Dietl P → Wang W et al. 289
Dionne VE → Maue RA 244
Dörge A → Beck F-X et al. 477
Doucet A → Khadouri C et al. 296
Drews G: Effects of chloramine-T on charge movement and fraction of open channels in frog nodes of Ranvier 251
Dreyer F → Gansel M et al. 533
Droogmans G, Declerck I, Casteels R: Effect of adrenergic agonists on Ca^{2+}-channel currents in single vascular smooth muscle cells 7
Dunlap K → Rane SG et al. 361
Dupont J-L → Taleb O et al. 620

Edwards C → Zemková H et al. 540
Egfjord M → Daugaard H et al. 217
Eguchi K, Tadaki E, Simbulan D Jr, Kumazawa T: Respiratory depression caused by either morphine microinjection or repetitive electrical stimulation in the region of the nucleus parabrachialis of cats 367
Ehrenfeld J, Cragoe EJ Jr, Harvey BJ: Evidence for a Na^+/H^+ exchanger at the basolateral membranes of the isolated frog skin epithelium: Effect of amiloride analogues 200
Eikhof G → Schwarz JR et al. 569
Elliott JR, Haydon DA, Hendry BM: Local anaesthetic effects of benzene and structurally related molecules, including benzocaine, on the squid giant axon 589
Elliott JR, Haydon DA, Hendry BM: The mechanisms of sodium current inhibition by benzocaine in the squid giant axon 596
Eveloff J → Silva P et al. 74

Fantini E, Athias P, Courtois M, Grynberg A: A simple gas-flow chamber for cultured cell electrophysiology in a controlled atmosphere 632

Feltz A → Taleb O et al. 620
Feltz P → Taleb O et al. 620
Ferreira AT → Markus RP et al. 528
Fink RHA, Stephenson DG: Ca^{2+}-movements in muscle modulated by the state of K^+-channels in the sarcoplasmic reticulum membranes 374
Fleming N, Bilan PT, Sliwinski-Lis E, Carvalho V: Muscarinic, α_1-adrenergic and peptidergic agonists stimulate phosphoinositide hydrolysis and regulate mucin secretion in rat submandibular gland cells 416
Fritzsch G → Ullrich KJ et al. 229
Frömter E → Burckhardt BC 132

Gambarelli E → Ternaux JP 507
Gansel M, Penner R, Dreyer F: Distinct sites of action of clostridial neurotoxins revealed by double-poisoning of mouse motor nerve terminals 533
Garg LC, Narang N: Effects of potassium bicarbonate on distal nephron Na-K-ATPase in adrenalectomized rabbits 126
Geisbuhler TP, Sergeant S, Miramonti FL, Kim HD, Rovetto MJ: Forskolin inhibition of hexose transport in cardiomyocytes 158
Gerstheimer FP, Mühleisen M, Nehring D, Kreye VAW: A chloride-bicarbonate exchanging anion carrier in vascular smooth muscle of the rabbit 60
Gilat E → Binah O et al. 214
Gögelein H, Greger R, Schlatter E: Potassium channels in the basolateral membrane of the rectal gland of *Squalus acanthias*. Regulation and inhibitors 107
Gögelein H, Schlatter E, Greger R: The "small" conductance chloride channel in the luminal membrane of the rectal gland of the dogfish (*Squalus acanthias*) 122
Gögelein H → Greger R et al. 100, 114
Golenhofen K → Wiegand W 302
Gray DA, Kaul R, Brummermann M, Simon E: Dissociation between apparent volumes of distribution for inulin and sodium by salt adaptation in ducks 422
